

**EXPERIENCE**

# THE COACHING GAME

Using the innovative Points of You® tools

Every little thing in life has countless points of view. The real challenge is to look at things from a new perspective. Once we break free from a set patterns of thought we will open up to new possibilities for expansion, change and growth.

Using a very playful and creative approach, through the power of photos, you will be invited to explore new Points of You, looking at things from new points of view. An innovative tool and training for professional and personal development.

Everyone who is looking for self-development is invited to come.  
Participate and enjoy the journey. The workshop is donation-based.

**22 AUGUST | 19:00 - 20:30**

L200 Space, Langstrasse 200, Zürich
